

AHRMM's Disaster Preparedness Manual for Healthcare Materials Management Professionals

This manual provides healthcare supply chain professionals with an overview of the specific value and expanded leadership roles they can play in the phases of disaster preparedness. Full of valuable ideas and suggestions, it shows what actions to take to help your organization function more effectively before, during, and after a disaster.

LEARN:

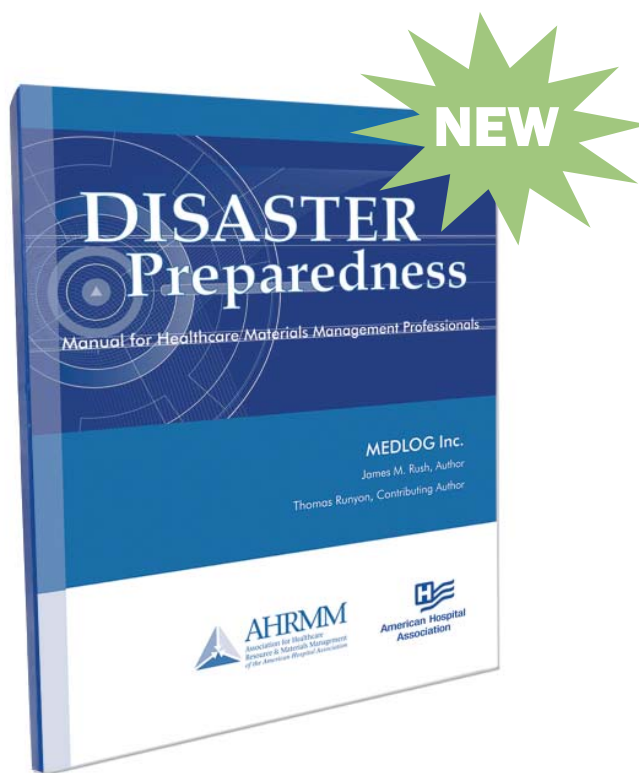

- Who should be involved in the disaster planning process.
- What Federal resources exist to help.
- Where to obtain supplies and equipment when the demand for medical products overwhelms healthcare suppliers.
- How to optimize support to the hospital.
- Which leaders to team with to best contribute skills and experience to the overall hospital integrated disaster program.
- What specific procedures should be incorporated into the disaster program.

ORDER:

AHRMM Members \$99. Non-members \$199.
